Our Story...

Clarity Group UK is a renowned company with more than a decade of experience in providing innovative digital signage, event management, interior design and fit-outs.

We are introducing our latest product line, sustainable WoodPanel, which comprises MDF decorative panels that can create a warm and inviting environment in any indoor space. These panels are made from high quality MDF, known for its durability and sustainability.

Our WoodPanel products are available in a wide variety of stunning wood grains and colours, which are carefully crafted to ensure a unique and visually appealing installation every time. Our panel designs and styles cater to the diverse needs of our clients, which includes smooth panels, grooved panels, and three-dimensional textured panels, available in a range of sizes and finishes.

To learn more about our WoodPanel products, please visit our website.

We are committed to working closely with our clients to create beautiful and natural spaces that leave a lasting impression on their customers.

Serene Wood Panel Collection

Our Serene wood panel collection consists of traditional and contemporary wood grain designs that pay close attention to the source of the wood replication.

We have created a collection that is environmentally focused on the origin of the natural wood design and how this in-turn translates within homes that combine a mixture materials, but still desire want connectivity to the outdoors within the comforts of your home.

Did you know?

Wood Panels are Eco-Friendly:
Wood is a renewable resource, making wood panels an environmentally friendly choice for interior decor and construction.

Divergent Wood Panel Collection

Our Divergent wood panel collection has natural wood grain designs that fuses organic textures with a contemporary appreciation to evolving rooms through decisive colour matching.

You will notice the natural wood grain textures are prominent within this collection to preserve the beauty of the wood as it contrasts the black colour.

This is an intentional design aesthetic that guarantees a continuous pattern throughout your project, resulting in a fusion of the old and the new working together in uniformed harmony.

Opulent Wood Panel Collection

Our opulent wood panel collection is visually stunning and the perfect for introducing a more traditional look to a luxurious and modern themed design scheme. The distinct appearance elevates a floor to a more luxury standard.

The physical characteristics of the wood grain vary from a rich dark brown to more of a chocolate hue, which creates a truly unique pattern and appearance through its large knots that swirl through the wood.

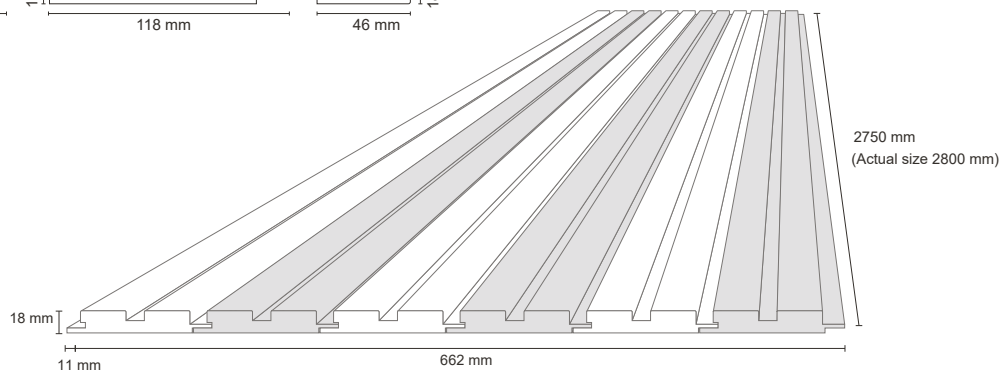

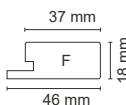

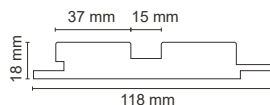

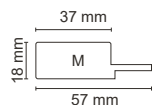

Our collection comprises of close attention to detail when highlighting the dark tones within the captivating wood grain. The distinct appearance has an unmistakably elevated and well-appointed elegance that is reminiscent of dark chocolate description, which creates a well thought out and intended character profile suited to homes that desire a certain level of class and sophistication.

LED Strip Lighting

Our specially designed LED lumination will add a spectacular touch to your wall. LED Strips are available in two versions: SMD and COB

The LED color options:

- Cool White
- Day white
- Warm White
- RGB
- RGB W

SMD LED

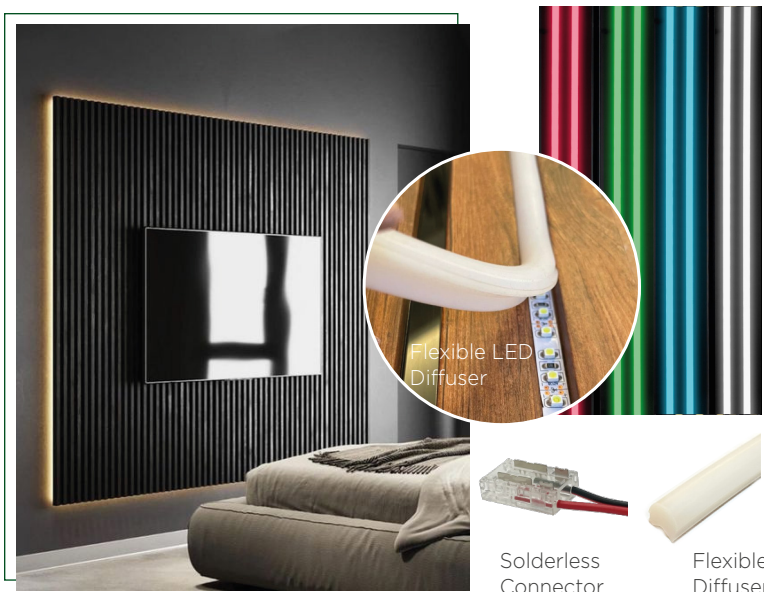

COB LED

All above LEDs are also available in digital programmable strips.

The LED strip can be easily applied to your wood panelling by peeling off the backing and sticking it in the desired slot.

To create a unified illuminated effect (line illumination), cover the LED dots with our specially designed flexible diffuser covers. In some models, after fixing the LED stripes, apply thin bit of mitre glue under the corners, fix the flexible diffuser and spray.
